IN B&H NEITHER BRAIN IS ANY MORE AT HOME

Having experienced, during past few days, a complete disappearance of my site BOSNAWI.BA, and after that its second kind of disappearance, namely only from the sight of BH. visitors (who reported me about it), I looked after a professional expertise, and got the following:

Tag: POSSIBILITY OF THE DISAPPEARANCE OF A SITE FROM THE VISION OF ONLY BH. INTERNET USERS

Target group: USERS OF BH. TELECOM PROVIDER OF INTERNET, SITES AND SO ON...

Targeted site: BOSNAWI.BA

Expert findings: As to domestic censorship and prohibition of the access to certain sites for users inside the Country, it cannot do UTIC, nor the same can affect this. It is technically realised on so-called **DNS** server (**Domain Name Server**), which is the host, the **Internet Service Provider (ISP)**.

In Bosnia and Herzegovina it is **BH Telecom**, which provides hosting for BH. users of **DNS**, and on it can set the filters and bans - which sites will /not / be available and visible to its users.

Expert opinion: In (normal) state about it decides only a competent committee, **RAKA**, or any other **State agency**.

The Authoress' of this site exclamation: If this were a normal state and not the state of One Person (**SOP**) or One Party (**SOP**)! At least its outdodik's part!

Prize-winning question:

IS DADDY'S SON OMNIPOTENT?

Award-winning answer: OF COURSE HE IS NOT! BUT, YOU, FOOL, THIS IS B&H!

Résumé:

DADDY'S SON&PARTY CAN DO ALL THROUGH THEIR CORRUPT MEMBERS AND MERCENARIES, WHO ARE AVAILABLE EVERYWHERE!
